# Tips for the Exam in electrical Engineering

This page is optimized for presentation mode.

## Boundaries from the Regulations (SPO)

- 60 Minutes
- LK - course accompanied by written exam at the end
  - usually in combination with the course and in relation to its content
  - A subject examination related to exactly this course.
  - Marks: 1.0; 1.3; 1.7; ... 3.7; 4.0 and 5.0 (= everything worse than 4.0)
- Electrical Engineering Lab (3rd Sem):
  - EE1 with  $\leq 4.0$

## Coordinated specifications in T1

- Aids
  - Own formulary (2 DIN A4 pages)
  - non-programmable pocket calculator
- Mark 4.0  $\triangleq$  40%
- Total score: 50 points

## General Tips

- Do not forget the derivation of results
- Read the task well.  
Work on the task in the required manner.
- **Don't Panic**  
if a task is too difficult / takes too long  
→ there are still others
